

¡Bienvenidos

My name is Natalia de la Chica, founder of the Living Spanish organization, and I would like to give you a brief description of our Spanish enrichment program. The Living Spanish study program is developed especially for children. Moreover, all of our teachers are native speakers and experienced instructors who follow a developmentally correct curriculum.

Because we are introducing this new language at a very early age, we make sure to keep the learning process fun and creative using games and other interactive activities. Younger learners develop their receptive skills much faster than their productive skills, which is important to keep in mind if we are creating the basis for a more profound study of the language in the future. Our approach encourages spontaneous language production; it helps kids develop the ability to use the language in a proper and meaningful context, much in the same way that they learn their

own language.

Parents club

Experience has shown that parents' involvement is a crucial aspect of successful language enrichment programs. Living Spanish now offers classes for parents who are interested in learning Spanish, to be able to support their children's effort in this language. Schedules and further information are available at www.livingspanish.org.

Private classes

Living Spanish is also offering private Spanish classes at our language center, Learnika, located at 572 College Ave, Palo Alto, CA 94306. Please contact Natalia de la Chica at nataliad@gmail.com for further information.
